

Hippocrates AI

Milestone Asset: First Institution Integration

Milestone Overview

Name of Milestone: First Institution Integration

Budget: ₦3,000,000.00

Duration: 60 days

Description

Institutional integration and moving to a B2B model means that more users will be served. As a result, credit usage via Hippocrates AI API key will massively increase. This need can only be met by purchasing more AI credits for the API keys. The goal is to have our first institutional customer within the next 60 days.

Expected Deliverables

1. Successful onboarding of the first institutional customer (e.g. a university department or secondary school).
2. Support for the implementation and utilization of the platform.
3. Performance monitoring report demonstrating stable API and Server handling at institutional scale.
